WORK EXPERIENCE

Front End Team Lead | Webservicespros and Createanapi

ABD / San Tan Valley, AZ - May 2020 - Current

- Designed REST calls using React to streamline user interface performance.
- Developed user interfaces for deployment on Amazon Web Services (AWS) platforms.
- Maintained high-level expertise in React state management strategies.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Updated old code bases to modern development standards, improving functionality.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases. Documented technical workflows and knowledge to educate newly hired employees.
- Coordinated with project management on database development timelines.
- Developed clear specifications for project plans using customer requirements. Designed intuitive graphical user interfaces to improve user experience.
- Pioneered new methods of code review to incorporate wider range of voices.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Designed customized solutions for proposals to potential customers. Participated in software field testing to verify performance of developed projects.
- Designed reusable and reliable code for use within distributed cloud environments.

Senior Front End Developer | Esin Bilişim

Istanbul, Esenyurt - March 2019 - January 2020

- Designed customized solutions for proposals to potential customers.
- Participated in software field testing to verify performance of developed projects.
